

**TOMLINSON BOMBERGER STAFF MEMBERS
VOLUNTEER THEIR TIME & TALENT FOR
"Renewal & Remembrance"
AT ARLINGTON NATIONAL CEMETERY**

Hundreds of professional landscapers, arborists, and lawn care technicians, members of the Professional Landcare Network (PLANET) and the Tree Care Industry Association (TCIA) converged on the nation's capital in July, traveling at their own expense from all over America to put in a hard day's work for no pay. They came to make a payment on a national debt. It is a debt they know can never be fully repaid.

Renewal & Remembrance is an annual landscape renovation and enhancement project organized by **PLANET & TCIA**. Members donated plants, materials, equipment & labor. Over 54 trees, 65 flowering shrubs & 700 perennials were planted. Additionally, the 400 volunteers applied lime to 270 acres of turf, aerated 23 acres of turf, pruned 26 trees, installed lightning protection for 3 old historic trees, and installed cabling and bracing in 13 hazardous trees.

In spite of the hot and steamy July weather, an abundance of motivation flowed in the hearts of every volunteer and donor. They drew their inspiration from the solemn beauty of these two revered historic sites and the enormous sacrifices made by those who rest there. Although the debt can never be repaid, **Renewal & Remembrance** is a chance to give back.

Eleven coworkers from **Tomlinson Bomberger Lawn Care, Landscape & Pest Control** volunteered and participated in this year's event. Tom Shotzbarger, General Manager for Tomlinson Bomberger, was the Chairman who helped coordinate the efforts of 400 participants. "Volunteers came from as far away as Oregon and California. Everyone was thrilled to be there to give back to our heroes, veterans, and statesmen buried at these two cemeteries," stated Tom.

This year's efforts were valued at **\$282,000**, all performed in 2 days. "It was an incredible event and I was honored to help lead such a great group of volunteers." The effort for 2007 was the eleventh consecutive year for **Renewal & Remembrance**, and Tom is already planning and looking forward to next year's event.

The Tomlinson Bomberger Volunteer Team:
Greg Borders, Matt Fulmer, Terry Hoop, Steve Heydt,
Bob Kondratovich, Mike Lindermuth, Jill Parsons, Bill Rohrback,
Tom Shotzbarger, Greg Tomlinson & Jim Weidman

**AMAZING
FACTS**

The oldest and the largest trees in the world are in California.

Japanese Beetle collection bags invite the insects to your property. Do not use them.

Fleas can remain in their resting place for up to a year. During that time they do not feed. If they sense people or animals walking, vibrations or an increase in temperature, they will emerge from their rest as full-grown hungry adults and bite the closest food source.

Sharp mower blades are critical for a nice appearance to your lawn.

Lawn areas in the shade should be seeded every year.

All lawns should be aerated every year.

Only Pine trees have "pine" cones. Fir trees have "fir" cones. Hemlock trees have "hemlock" cones.

TESTIMONIALS

"We are thrilled with your pest control services. We had used other companies in the past, and they couldn't get rid of the ants. Your technician is a great person and does great work. We would recommend your company to anyone needing pest control."

Mr. and Mrs. Richard W., Lancaster

"The job was done beautifully. Your workers were extremely professional, and cleaned up the property very nicely. It looks great! We are very pleased with everything that was done. We really appreciate it!!! Tomlinson Bomberger is a Great Company!"

Mrs. Charles M., Lancaster
